New Open Access Journal – Give your feedback !

The European Agricultural and Applied Economics Publications Foundation (EAAEP) and Oxford University Press (OUP) have produced a survey to explore the potential for establishing a new open-access journal in the area of agricultural economics. As a member of the European Association of Agricultural Economists, they would find your views extremely valuable in ensuring that any new

journal meets the aims and preferences of the European agricultural economics profession. The survey is anonymous and will take less than 10 minutes to complete. Here is the [link](#) to the survey. Your input is very much appreciated !

Call for proposals for review articles in ERAE

The European Review of Agricultural Economics has introduced a new section for review articles, and the ERAE Editors welcome proposals for review articles from EAAE members. Review articles should provide a comprehensive and scholarly account of a topic that has direct relevance to agricultural economics (methodological or applied) and that has not recently been covered in the literature. A pre-submission enquiry is required. If you are interested in writing a review article for ERAE, please send an abstract, outline, and key references to erae.editorialoffice@oup.com
