### Newsflash 2021, May

#### ERAЕ information :

The European Review of Agricultural Economics now accepts review articles, and the ERAЕ Editors welcome proposals for review articles from EAAE members. Review articles should provide a comprehensive and scholarly account of a topic that has direct relevance to agricultural economics (methodological or applied) and that has not recently been covered in the literature. A pre-submission enquiry is required. If you are interested in writing a review article for ERAЕ, please send an abstract, outline, and key references to [erae.editorialoffice@oup.com](mailto:erae.editorialoffice@oup.com).

#### NEW European Network of Early Career Agricultural Economists: AgEconMeet

The EAAE board recently met with the newly formed European Network of Early Career Agricultural Economists called AgEconMeet. We cordially invite you have a look at their activities as detailed on this page: <http://eaae.org/AgEconMeet.aspx>

#### Survey on Pre-Analysis Plans and Pre-Registration

We would like to invite you to take part in a voluntary online survey regarding your opinions on **Pre-Analysis Plans and Pre-Registration**. These might become mandatory at one point to improve transparency in research. Conversations are taking place requesting all researchers who use data, regardless of primary/secondary or experimental/observational data, to improve clarity and transparency in all stages of analysis. Your opinion matters as your response can guide the implementation of both concepts in your research field. Note that the survey provides background information on pre-analysis plans and pre-registration. The survey might take about 15-20 minutes and is open until May 31st, 2021. We recommend to open the survey on a computer.
