

EUROPEAN ASSOCIATION OF AGRICULTURAL ECONOMISTS  
P.O. Box 8130 | NL-6700 EW | WAGENINGEN |  
The Netherlands  
Secretary General Alfons Oude Lansink  
EAAE@wur.nl | [www.EAAE.org](http://www.EAAE.org)

## Newsflash 2021, June

### ERAE information :

The European Review of Agricultural Economics now accepts review articles, and the ERAE Editors welcome proposals for review articles from EAAE members. Review articles should provide a comprehensive and scholarly account of a topic that has direct relevance to agricultural economics (methodological or applied) and that has not recently been covered in the literature. A pre-submission enquiry is required. If you are interested in writing a review article for ERAE, please send an abstract, outline, and key references to [erae.editorialoffice@oup.com](mailto:erae.editorialoffice@oup.com).

### Research Discovery Award 2020

The EAAE is now seeking nominations for the Research Discovery Award for journal articles published in the calendar year 2020. In addition, we are seeking nominations for the EAAE Societal Impact Award in honour of Giovanni Anania. The EAAE encourages you to nominate either your own publication or to nominate your colleagues' publications. Please send nominations to the Secretary-General of the Association ([eaae@wur.nl](mailto:eaae@wur.nl)) by the 31st of August 2021.

### Q Open welcomes submissions

*Q Open* is the Open Access initiative of the EAAE. It aims to be an inclusive forum for applied economics research broadly in the area of agricultural and environmental economics and cognate fields. The main areas of coverage are agricultural economics, environmental and climate economics, natural resource economics, development economics (agricultural/rural topics) and food economics (and related nutrition- and health economics topics). *Q Open* welcomes replications and 'null-result' research. It also welcomes pre-registered experimental research, where an empirical research project and its methodology are peer-reviewed prior to data collection. The final article is then provisionally accepted on condition that the author follows the registered methodology.

Proposals for special issues are encouraged. *Q Open* is committed to fast peer-review, and aims to provide authors with a first decision within 4-6 weeks of submission. *Q Open* operates 'sound-science' peer review, where the focus is on scientific rigour and reflects the state-of-the-art in the field. The editorial decision on acceptance/rejection relies less on the often subjective evaluations of likely impact, novelty, or breadth of interest. The practice of existing journals in the field shows that the editorial process has limited success in evaluating along these dimensions of manuscript quality and it may be a source of publication bias, as currently discussed in the scientific community in general.

Authors are encouraged to share the decision letter and reviews from previous submissions to assist the editors and to make the review process as efficient as possible. In most cases, the editors will seek at least one further review. Authors have the option to choose a no-revision review. This means that they are guaranteed not to receive a decision requiring them to do a major revision. Under this option, submissions that require substantial revision will be rejected.

## NEW European Network of Early Career Agricultural Economists: AgEconMeet

The EAAE board recently met with the newly formed European Network of Early Career Agricultural Economists called AgEconMeet. We cordially invite you have a look at their activities as detailed on this page: <http://eaae.org/AgEconMeet.aspx>

### EAAE Seminars
